Tack Rags

NO CONTAMINATION

HIGH
RESISTANCE

DIFFERENT LEVEL
OF TACKINESS

DUST AND PARTICLES
CAPTURING

Original

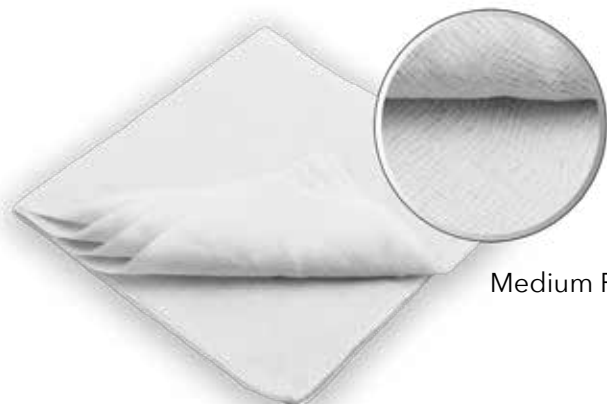

Treated with tacky material. Designed to remove loose particles of dust, dirt and lint that would contaminate a surface that is to be painted, coated, laminate or finished

Medium particles

Cotton Gauze

Totally natural - Economical

Medium Particles

Bleached Cotton Gauze

No risk of cross contamination - Doesn't mark the surface

Medium particles

Polyester Gauze

Better resistance than cotton - Consistent result

Expert

Non Woven made from viscose and polyester. Its unique structure is perfect to wipe all surfaces, even or uneven surfaces, with a high efficiency

Fine particles

Non Woven - Green

Great 1 step solution - Green honeycomb design

Fine particles

Non Woven - White

Great 1 step solution - White honeycomb design

Fine particles

Non Woven - Blue

Great 1 step solution - Blue honeycomb design

Premium

The textile is made 100% of Polyester filament knitted in a resistant mesh to guarantee the perfect stability. Particularly recommended when no dust contamination is admitted

Ultrafine particles

Knitted

70gr/m2 - Designed for the perfect finish
Lift ultrafine particles

Ultrafine particles

Knitted

90gr/m2 - Incredible resistance to tearing
Lift ultrafine particles

Merino Wool

Gold PRO Sheepskin

GRIP wool pad with a short pile sheepskin for a less aggressive cutting action.

GL080

GL135

GL150

GL180

Super Fine Wool

Finest double combed, pure New Zealand Merino sheepskin GRIP pads for fine/medium cut.

SF300

SF400

SF550

SF650

Merino Sheepskin

Ultimate Merino sheepskin for use with GRIP backing pads.

40242

40243

40246

40248

Sheepskin Tie Cord

Merino sheepskin wool with a tie cord to attach to PSA or GRIP backing pads.

40005

40010

40015

40025

Super Buffing Pads

Large twisted 100% wool pads, great for marine polishing.

40425

40431

Pro Wool

Short pile wool with a foam layer for extra pad control and a fantastic finish

PW100

PW200

PW300

PW400

PW550

PW650

Superfine wool pile with 10mm foam layer and alignment hole for greater control of the pad.

Wool Buffing

Double sided natural wool medium cut pad

40411

Double sided

40401

From 5/8 to M14 adaptor for 40411

- Twisted wool pad for fast results on large areas
- 100% Pure wool

Microfibre

Made from microfibre and polyurethane foam, these pads replace the traditional foam surface with a more responsive microfibre top

1-Step

Black microfibre uses a shorter pile for a faster cutting action. Perfectly bonded to our firm backing foam.

Cutting

White microfibre cutting disc backed with a firm cutting foam. Works wonders with slightly oilier compounds.

Finishing

The best around to remove swirls and holograms! Works quickly to give you unparallel gloss!

To keep the microfibre surface working at its peak, rinse pads in warm water and air dry.
